

## Control Panel with Display & Memory MCP-TDH6

### Control Panel with Display & Memory

Control Panel with a display for height indication

The MCP-TDH6 Control Panel with display and memory is the perfect choice for a wide range of tables, offices desks, work desks and work benches, where the height should be displayed. All keys have been particularly user-friendly designed, and offers a "click-feeling" by each key-press. This means that the user can feel the "click" and does not have to see the keys on the Control Panel when operating the table or lifting column-/actuator-system.

The MCP-TDH6 Control Panel has a display for reading the height in centimeters or inches. The display turns off automatic when it is not in use and saves power in stand-by mode. Display and buttons are back-light illuminated.

Another feature is that the panel can be used as a diagnostic tool because it can display error codes of the lifting column system or an actuator system.

#### Material specifications:

Control Panel: PC, ABS. Cabel: PVC.

#### Technical data:

Control Panel Size: 150mm x 42,8mm

Thickness: 10/16mm

Screw holes, size: Ø5mm

Screw holes, number of mounting holes: 2

Mounting: For front mounting

Light: Yes

Pushbuttons: 7 keys

Digits: 3

Color: Black

Memory Functions: 4

Sealing: The display control panel must be protected against water and moisture.

Operating temperature: +5 °C - +45 °C

Cabel length: Standard 1500mm

Socket/Plug: RJ 10pin.

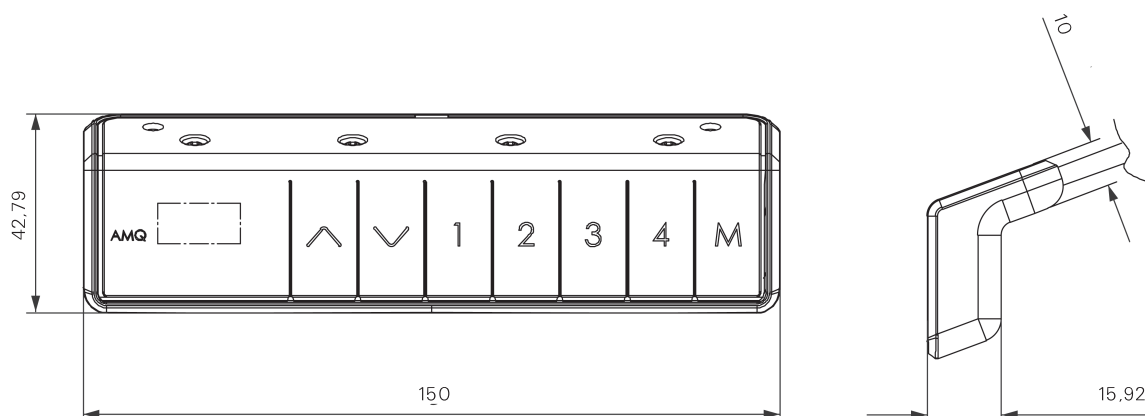

Options: Movetec offers the MCP-TDH6 Control Panel with Metric system (cm) or Imperial System (inch) measuring.
